Career Objective

Aspiring Artificial Intelligence and Data Science professional with a strong foundation in programming, data analysis, machine learning, and problem-solving. The objective is to apply technical knowledge and analytical skills to develop intelligent solutions that drive innovation and efficiency. Eager to contribute to an organization by learning, growing, and working on challenging projects in the fields of AI, Data Science, and emerging technologies, while continuously enhancing expertise and delivering value through data-driven decision-making.

Education

Bachelor of Technology CMS College of Engineering and Technology	2022 – 2026
Artificial Intelligence and Data Science	
CGPA: 7.4	Coimbatore, Tamil Nadu, India
Intermediate Narayana JR College	2020 – 2022
MPC	
67.3%	Guntur, Andhra Pradesh, India
Secondary The Central Public School	2019 – 2020
SSC	
96.3%	Guntur, Andhra Pradesh, India

Technical Skills

Python
Java
Microsoft Tools

Area of Interest

Artificial Intelligence and Machine Learning
Deep Learning and Neural Networks
Robotics & Intelligent Systems
Photography

Projects

Project 1:	May 2025
Weather Forecasting System	
Duration - 2 Month	
Developed a weather forecasting application that provides real-time and future weather predictions based on location data. The system integrates APIs to fetch live weather information and applies data processing techniques to display parameters such as temperature, humidity, wind speed, and atmospheric conditions. The project was designed with a user-friendly interface, ensuring accurate and accessible weather insights.	

Project 2:**August 2024****Speech Text Reader****Duration – 1 Month**

Developed a Speech Text Reader application that converts written text into natural-sound speech. The system uses text-to-speech (TTS) technology to enhance accessibility for users, especially those with reading difficulties or visual impairments. It supports multiple text inputs and provides clear audio output, making digital content more user-friendly. This project strengthened my skills in Python programming, speech processing libraries, and user interface development.

Internship**Web Development at Spypro Security Solutions Pvt Ltd.****July – August 2024****Duration – 28 days**

Completed an internship focused on designing and developing responsive web applications. Gained hands-on experience with HTML, CSS, JavaScript, and frameworks for front-end development, along with exposure to backend integration. Collaborated with the team on real-time projects, improving skills in problem-solving, UI/UX design, and project deployment.

Certifications**Infosys ICT Academy****August 2025**

Power BI is a powerful business intelligence and data visualization tool developed by Microsoft. It enables users to connect to various data sources, transform raw data into meaningful insights, and create interactive dashboards and reports.

IBM Skills Build**September 2024**

UI (User Interface) and UX (User Experience) design focus on creating digital products that are both visually appealing and easy to use.

Mongo DB**April 2024**

MongoDB is a popular open-source NoSQL database designed for handling large volumes of unstructured and semi-structured data.

Accomplishment

UDVIKASH Hackathon - R.V.R & J.C College of Engineering, Andhra Pradesh

December 2023

TCS ACM-CS PATHSHAALA – ZPHS Prathipadu, Andhra Pradesh

August 2024

Declaration:

I hereby declare that the particulars furnished above are true and correct to the best of my knowledge and belief.

Place:

Yours Faithfully,
